Mid-term Exam Announcement

- Mid-term exam will be held on Oct 20th in class (117 MLH).
- This will be an open book exam. You can use any written materials you want, including lecture notes, Java tutorial printouts, book, homework solutions etc. You will not be allowed to share materials with your classmates during the exam.
- You will not be allowed to use any electronic devices (e.g. computer, cell phones, calculator etc.) during the exam.
- The exam will have four questions:
  - **Question 1 (String problem):** You will be asked to write a method that processes a string and returns the result. Check HW 2 for examples. [20 points]
  - **Question 2 (Array and Object handling problem):** You will be given a code template with some unimplemented methods. Your task will be to implement those methods to make the program generate the desired output. The output will be given with the program. This program will require you to work with Java arrays and objects. You may find similar problems in HW1 and HW3. [35 points]
  - **Question 3 (Error correction):** You will be given one or more Java programs with errors. Your task will be to list as many errors as you can, and write a corrected version of the program(s) fixing the errors you listed. [30 points]
  - **Question 4 (Output):** You will be given at least two Java programs. Your task will be to write the output produced by them. [35 points]
